Dear Grigore Florin Alexandru

I want to **congratulate** you on completing the **Python Programmer** course as part at InfoAcademy®. This hands-on, lab-oriented course has prepared you for tremendous career opportunities.

You have achieved student level credential for completing this course and acquired the following **capabilities**:

- Understand and work with different types of variables
- Use if, if in if, if-else, if-elif-else decisional statements, while and for loop statements
- Use tuple, list, set and dictionary
- Understand Python functions
- Understand OOP in Python, including inheritance and polymorphism in Python, special methods like `__init__`, `__str__`, `__len__`, `__getattr__`, `__setattr__` etc., public attributes and methods
- Read and write various files in Python
- Create modules and packages for code reuse
- Install and use different modules
- Working with regular expressions
- Working with databases in Python
- Working with Excel and .csv in Python
- Send emails from local or external SMTP servers
- Create different types of charts
- Exceptions in Python
- Made executable files from Python
- Create a simple graphic interface

Sincerely,

Paul Fratila

President InfoAcademy
